

TABLE OF CONTENTS

PART I: IC END-USE APPLICATION DATABASE

Section 1. IC End-Use Database Introduction	1-1
Background	1-1
Definitions.....	1-1
IC Product Segmentation	1-2
Survey Participants	1-3
Rounding Error	1-3
Other Considerations	1-3
IC Market Forecast Data	1-5
Section 2. IC End-Use by Electronic System Type	2-1
Introduction	2-1
IC Market Overview	2-1
IC Usage by System Type	2-4
Government/Military IC Usage	2-4
Communications IC Usage.....	2-8
Industrial IC Usage.....	2-13
Computer IC Usage	2-17
Automotive IC Usage	2-20
Consumer IC Usage	2-24
Total IC Usage by System Type	2-28
Section 3. IC End-Use by Device Type	3-1
Introduction	3-1
Digital Bipolar	3-1
Analog	3-2
MOS Microcomponents.....	3-9
MOS Microprocessors (MPUs)	3-10

TABLE OF CONTENTS

MOS Microcontrollers (MCUs).....	3-13
Digital Signal Processors (DSPs).....	3-16
Total Microcomponents	3-18
MOS Logic/MPR (Microperipherals)	3-21
MOS Memory (DRAM, Flash, SRAM, and Other).....	3-27
Total Integrated Circuits (ICs).....	3-42
Section 4. IC End-Use by Geographic Region	4-1
Introduction	4-1
Electronic System IC Usage by Region	4-1
Total IC Usage by Region	4-1
Regional Government/Military IC Usage	4-2
Regional Communications IC Usage	4-3
Regional Industrial IC Usage	4-4
Regional Computer IC Usage	4-5
Regional Automotive IC Usage	4-6
Regional Consumer IC Usage	4-7
Americas IC Usage by System Type	4-8
European IC Usage by System Type	4-14
Japanese IC Usage by System Type	4-19
Asia-Pacific IC Usage by System Type	4-25

PART II: ANALYSES OF END-USE APPLICATIONS

Section 1. Automotive Electronics	1-1
Introduction	1-1
Background	1-2
Worldwide Automotive IC Market.....	1-5
Automotive IC Market by Device Type	1-8
Analog ICs and Sensors.....	1-10
Microcontrollers	1-13
Digital Signal Processors	1-16

TABLE OF CONTENTS

Emerging Automotive Systems	1-17
Entertainment and Mobile Media	1-18
Bluetooth-Enabled Vehicles.....	1-18
iPod/MP3 Connectivity—A Standard Feature	1-19
Video Entertainment Systems	1-19
Telematics	1-19
Satellite Radio.....	1-20
Safety.....	1-22
Roadside Assistance and Emergency Services	1-23
Adaptive/Intelligent Cruise Control	1-24
Smart Radar Cocoon.....	1-26
Smart Airbag Systems.....	1-28
Tire Pressure Monitoring	1-29
Drive by Wire	1-30
Replacing Mechanical Systems with Electronics.....	1-31
Electronic Steering	1-32
Electronic Stability Control	1-33
Active Suspension.....	1-34
42V Power System Efforts and Hybrid Vehicles	1-34
Data Buses: CAN, MOST, LIN, and FlexRay.....	1-38
Applications to Watch	1-41
Vehicle-to-Vehicle (V2V) Communications	1-41
Automotive Black Box	1-42
PC Integration.....	1-43
Others	1-43
Section 2. Cellular Phones.....	2-1
Communications System Overview	2-1
Electronic Systems Market Makeup	2-1
Wireless Communications Systems Market	2-2
Cellular Basestation Market Overview	2-5
Communications IC Market Overview	2-7
Cellular Technology Background	2-11
2.5G Cellular.....	2-15

TABLE OF CONTENTS

Cellular Service Subscriber Forecast.....	2-16
Overview	2-16
Regional Subscriber Base Forecast	2-16
China’s Increasing Role.....	2-21
Approaching Saturation	2-23
Cellular Subscriber Base Standards.....	2-25
Cellular Phone Handset Market Trends	2-29
Leading Supplier Rankings.....	2-29
Total Cellular Handset Shipment Forecast.....	2-31
Replacement Factors	2-33
Cellular Handset Shipments by Type	2-35
Smartphone Cellular Handsets.....	2-39
Smartphone Characteristics.....	2-39
Apple’s iPhone	2-40
The “Google” Phone	2-42
Cellular Handset Market Analysis.....	2-43
Handset Average Selling Prices	2-43
Color Screens	2-47
Camera Phones	2-48
TV Cellular Phones	2-49
IC Content in Cellular Handsets	2-52
Leading Cellular Handset IC Suppliers	2-61
Third Generation (3G) Cellular	2-64
Overview	2-64
China’s TD-SCDMA 3G Standard.....	2-69
4G Cellular.....	2-70
Section 3. Digital Cameras.....	3-1
Introduction.....	3-1
New Era for Digital Cameras	3-3
Basics of Operation.....	3-6
Resolution Trends	3-7
CCD and CMOS Image Sensors.....	3-11
Digital Camera Cost Breakdown.....	3-18

ICs Inside Cameras	3-19
Memory Card Storage Options	3-20
CompactFlash.....	3-21
Secure Digital/MultiMediaCard.....	3-22
xD-Picture Card (xD)	3-22
Sony Memory Stick (MS).....	3-23
Camera and Image Processors.....	3-24
Powerful Hybrid Still/Video Cameras Arrive	3-26
Section 4. Digital Television	4-1
Introduction	4-1
Digital Television—Background	4-1
Digital Delivery	4-4
Cable	4-4
Satellite.....	4-4
Digital Terrestrial Television	4-4
Internet Protocol (IPTV)	4-5
Digital Television—Big Hopes for Mobile TV.....	4-6
Regional Mobile TV Standards	4-7
Mobile TV ICs	4-10
Digital Television—Big Demand for Big Screens.....	4-11
Flat-Panel Displays	4-11
Rear-Projection TV	4-15
End of the Line for CRT TVs?.....	4-16
DTV Market Forecast.....	4-16
High-Definition TV (HDTV)	4-16
Semiconductor Market for DTVs.....	4-18
Set-Top Boxes	4-21
Set-Top Box Market Forecast.....	4-22
Cable Cards and Integrated Digital TV	4-23
Section 5. DVD	5-1
Introduction	5-1
The DVD Disc	5-1

TABLE OF CONTENTS

Disc Formats	5-3
DVD-R/RW	5-3
DVD+R/RW	5-4
DVD-RAM	5-5
The Bottom Line	5-6
The DVD Player	5-7
Compatibility with Different Standards	5-9
DVD Recorders	5-9
High-Definition DVD: Blu-ray and HD DVD	5-10
High-Definition DVD Discs	5-10
High-Definition DVD Players	5-12
Blu-ray	5-12
HD DVD	5-13
Formats—A Moot Point?	5-14
Market Forecast and Analysis	5-16
Section 6. Digital Audio	6-1
Introduction	6-1
Formats	6-1
Receivers	6-3
Initial Target: Automotive Market	6-3
Shipments	6-4
Digital Audio Players	6-5
Solid State or Disk Drive	6-6
Digital Audio Player ICs	6-6
Wireless Connectivity	6-8
Compression Algorithms	6-8
The Competitors	6-10
iPod Phenomenon	6-10
Sony, Microsoft, SanDisk, and Others	6-15
Section 7. RFID and Smartcards	7-1
Introduction	7-1

RFID Components	7-1
Tags	7-2
Passive versus Active Tags.....	7-3
Frequencies: UHF and HF.....	7-5
The Drive to Five (cents)	7-8
Readers.....	7-11
Encoders	7-12
Middleware	7-12
Application Software	7-12
Applications in Retail.....	7-12
Applications in Pharmaceuticals.....	7-14
RFID Limitations.....	7-14
Standards	7-15
Interference	7-15
Company Roadmap Implementation.....	7-16
Skilled Labor	7-17
RFID Market Forecast	7-17
Summary	7-21
Smartcards.....	7-21
IC Technology.....	7-22
Smartcard Market Forecast.....	7-22
Section 8. Video Game Consoles.....	8-1
Introduction	8-1
Different Consoles, Different Strategies.....	8-2
Nintendo	8-4
Nintendo Wii.....	8-5
GameCube	8-8
Nintendo DS/DS Lite	8-8
Nintendo GameBoy	8-10
Nintendo Micro	8-10
Sony.....	8-13
PlayStation 3	8-13
PlayStation 2	8-15

TABLE OF CONTENTS

PSP	8-16
Microsoft.....	8-17
Xbox 360	8-17
Xbox 360 Processors	8-18
Global Video Game Market	8-21
Section 9. Personal Computers.....	9-1
Introduction	9-1
PC Market	9-3
PC System and Chip Trends	9-10
Microprocessors	9-15
System Chipsets	9-29
Peripheral Interfaces	9-33
Memory	9-35
Flash's Growing Presence in PCs	9-39
DDR2 vs. DDR3 SDRAMs and Beyond	9-41
Graphics.....	9-44
Section 10. Handheld Computing and PDAs.....	10-1
Introduction	10-1
PDA and PDA IC Markets	10-3
PDA Players and Arena.....	10-10
PDA Technologies and Trends	10-16
Palm OS-Based PDAs	10-19
Pocket PCs (Windows Mobile-Based PDAs)	10-21
Smartphones.....	10-24
Chips for PDAs.....	10-27
Section 11. Wireless Networks.....	11-1
Introduction	11-1
Wireless Local-Area Networks (WLANs) Described.....	11-1
Wireless Personal-Area Networks (WPANs) Described	11-6
Wireless Metropolitan-Area Networks (WMANs) Described	11-6
Brief Wireless Network Technology Overview	11-8

Wireless LAN Systems and Markets.....	11-10
WLAN Hardware Costs	11-13
Leading WLAN Equipment Suppliers	11-14
IEEE 802.11 (Wi-Fi)	11-15
Wireless PAN Systems and Markets	11-21
Bluetooth	11-21
Ultra Wideband.....	11-26
ZigBee.....	11-30
Z-Wave	11-33
Infrared Communication.....	11-35
Wireless Network IC Trends.....	11-37
IC Technology and Integration Trends	11-37
Wireless Network IC Markets	11-42
Wireless Network IC Suppliers	11-44
Broadcom.....	11-49
Atheros Communications	11-50
Intel.....	11-52
CSR (Cambridge Silicon Radio)	11-52
Texas Instruments.....	11-54
Section 12. Applications to Watch.....	12-1
Introduction	12-1
Wireless Sensor Networks.....	12-1
\$100 Laptop PCs for Developing Countries.....	12-4
Mobile and “Pause” TV	12-6
Solid-State Disk Drives and Hybrid Drives.....	12-8
Software-Defined Radios	12-10
Femtocell Basestations	12-11
Ultra Wideband (UWB) Unplugged Connections	12-12
Network Routers That Go with the Flow	12-13
Programmable Video Transcoders	12-14
E-Passports and Government IDs.....	12-15
Digital Video Surveillance Systems	12-15
Energy Harvesting	12-17

TABLE OF CONTENTS

Microfluidic Lab-on-Chip Devices	12-18
Autonomous (Unmanned) Vehicles.....	12-18
