

# TABLE OF CONTENTS

---

<b>Section 1. Executive Summary</b> .....	1-1
Challenges Ahead.....	1-2
<b>Section 2. Semiconductor Market Outlook</b> .....	2-1
The Electronic System/Semiconductor Relationship.....	2-1
Semiconductor Content .....	2-6
Macroeconomics.....	2-8
Worldwide GDP Trends .....	2-8
Worldwide Electronic System Production.....	2-11
The Global Semiconductor Market.....	2-14
Semiconductor Market History and Forecast.....	2-14
Semiconductor Market Forecast Assumptions .....	2-18
2008 IC Industry Forecast .....	2-18
2009-2012 IC Industry Forecast.....	2-19
2000-2012 Unit, Dollar, and ASP Analysis (ICs and O-S-D Devices).....	2-20
Semiconductor Unit Shipments .....	2-26
Market Forecast by Region.....	2-31
Opto, Sensor/Actuator, and Discrete Top Suppliers.....	2-34
<b>Section 3. O-S-D Market Overview by Device Type</b> .....	3-1
Growth Rate Comparisons.....	3-3

## TABLE OF CONTENTS

---

<b>Section 4. Optoelectronics Market</b> .....	4-1
Overview .....	4-1
Optoelectronics Forecast .....	4-5
Laser Segments Stage Recovery .....	4-7
Optoelectronics Market by Region and End-Use.....	4-10
Top Optoelectronics Suppliers.....	4-12
Image Sensors .....	4-14
CMOS Image Sensor Supplier Consolidation and Expansion.....	4-19
CMOS Image Sensor Resolution and Price Trends.....	4-22
High-Brightness LEDs.....	4-27
<b>Section 5. Sensors and Actuators Market</b> .....	5-1
Overview .....	5-1
Sensor/Actuator Forecast.....	5-5
Sensor/Actuator Applications and Regional Use .....	5-6
Top Suppliers and Foundry Trends.....	5-8
MEMS-based Product Growth.....	5-10
Sensors Segment Outlook.....	5-12
Pressure Sensors .....	5-13
Acceleration & Yaw Sensors .....	5-15
Magnetic-Field Sensors.....	5-17
Temperature Sensors .....	5-19
Application-Specific Sensor Trends .....	5-21
Microphone Chip Competition Grows .....	5-22
Fingerprint Sensor Growth .....	5-23
Actuators.....	5-26

<b>Section 6. Discretes Market</b> .....	6-1
Overview .....	6-1
Discretes Forecast.....	6-3
Regional Discretes Markets .....	6-7
Top Discretes Suppliers .....	6-11
Power Transistor Outlook.....	6-12
Automotive Applications.....	6-20
RF/Microwave Devices .....	6-24
<b>Section 7. Optoelectronics Technology</b> .....	7-1
Overview .....	7-1
Breakthroughs in Silicon Optoelectronics .....	7-1
Optical Communications .....	7-6
Laser Transmitter Trends.....	7-8
Optical Storage .....	7-10
Blu-ray Emerges as Winner .....	7-10
Blue Laser Challenges .....	7-11
Optocouplers and Optical Isolation .....	7-13
CCD vs. CMOS Image Sensors.....	7-15
How CCDs and CMOS Devices Work .....	7-19
CMOS Imaging Challenges and New Solutions .....	7-23
CCD Advancements .....	7-28
Light-Emitting Diodes (LEDs) .....	7-32
Solid-State Lighting Progress .....	7-34
White LED Challenges .....	7-38
High-Power LEDs Drive R&D .....	7-40
Leading Approaches to White LEDs .....	7-41

## TABLE OF CONTENTS

---

<b>Section 8. Sensors and Actuators Technology</b> .....	8-1
Overview .....	8-1
Pressure Sensors .....	8-4
Tire-Pressure Measurement Systems .....	8-7
MEMS-based Inertial Sensors.....	8-10
Inertial Sensors Invade Portable Systems.....	8-13
Accelerometers vs. Gyroscopes.....	8-15
Magnetic, Temperature, and Proximity Sensors .....	8-21
Electric-Field Sensing.....	8-25
Fingerprint Sensors .....	8-25
MEMS-based Actuators .....	8-27
Microfluidic Devices .....	8-27
Micro-Mirrors and Spatial Light Modulation.....	8-29
MEMS-based RF Filters and Silicon Oscillators.....	8-33
<b>Section 9. Discretes Technology</b> .....	9-1
Overview .....	9-1
50 Years of Proliferation and Specialization.....	9-1
Power Transistor Evolution.....	9-7
High- and Low-Voltage MOSFETs.....	9-10
Power MOSFET Packages .....	9-15
IGBTs .....	9-17
Bipolar Power Transistors .....	9-19
RF and Microwave Transistors .....	9-20
Silicon RF vs. Compound Semiconductors .....	9-22
Future Materials for RF and Power Discretes .....	9-27
