

# TABLE OF CONTENTS

---

|   |      |
|---|------|
| <b>Section 1. Executive Summary</b> .....       | 1-1  |
| Market Summary .....                            | 1-1  |
| The Almighty Cost per Watt.....                 | 1-3  |
| The Government Incentive Roller-Coaster.....    | 1-5  |
| And Now, the Big Price Drop.....                | 1-6  |
| <br>  |      |
| <b>Section 2. Solar Market Context</b> .....    | 2-1  |
| Introduction .....                              | 2-1  |
| The Green Imperative .....                      | 2-2  |
| Still a Bit Player .....                        | 2-4  |
| Are Smart-Grid Investments Required?.....       | 2-6  |
| Investing in Solar.....                         | 2-9  |
| China’s Big Push.....                           | 2-13 |
| And Here Come the Koreans.....                  | 2-13 |
| Competitive Technologies.....                   | 2-14 |
| <br>  |      |
| <b>Section 3. Photovoltaic Technology</b> ..... | 3-1  |
| The Basic Solar Cell .....                      | 3-1  |
| Types of Solar-Cell Wafers .....                | 3-5  |
| Wafer Size and Thickness.....                   | 3-7  |
| Manufacturing Steps for a Basic Cell .....      | 3-9  |
| Keeping It Simple.....                          | 3-10 |
| Back-Contact Cells .....                        | 3-11 |
| III-V Cells .....                               | 3-13 |
| Thin-Film PV Modules .....                      | 3-15 |
| Silicon-based TF Solar .....                    | 3-16 |
| CdTe-based TF Solar.....                        | 3-18 |
| CIGS-based TF Solar .....                       | 3-19 |
| Dye-Sensitized Solar Cells .....                | 3-21 |

## TABLE OF CONTENTS

---

|  |            |
|--|------------|
| Organic and Polymer Solar Cells.....                       | 3-22       |
| Other Inorganic Compounds .....                            | 3-23       |
| <br>   |            |
| <b>Section 4. Solar PV Market Forecast.....</b>            | <b>4-1</b> |
| Forecast Assumptions .....                                 | 4-1        |
| Environmental Opinions are Subject to Change.....          | 4-4        |
| Technology Revolutions Take Time .....                     | 4-6        |
| Forecast: System, Panel, and Cell Sales.....               | 4-7        |
| Regional End Markets .....                                 | 4-11       |
| <br>   |            |
| <b>Section 5. Photovoltaic Device Suppliers .....</b>      | <b>5-1</b> |
| Introduction .....   | 5-1        |
| Q-Cells AG .....   | 5-3        |
| First Solar Inc.....                                       | 5-5        |
| Suntech Power Holdings Co. Ltd.....                        | 5-7        |
| Sharp Corp. ....   | 5-8        |
| Motech Industries Inc.....                                 | 5-10       |
| Kyocera Corp. ....   | 5-11       |
| JA Solar Holdings Co. Ltd.....                             | 5-12       |
| Yingli Green Energy Holding Co. Ltd.....                   | 5-14       |
| Gintech Energy Corp.....                                   | 5-15       |
| Solar World AG .....                                       | 5-16       |
| SunPower Corp.....   | 5-17       |
| <br>   |            |
| <b>Section 6. Semiconductors in PV Solar Systems .....</b> | <b>6-1</b> |
| Introduction .....   | 6-1        |
| Semiconductor Building Blocks .....                        | 6-5        |
| Solar System Configurations .....                          | 6-9        |
| IC Developments .....                                      | 6-14       |
| <br>   |            |
| <b>Section 7. Manufacturing Equipment Forecast.....</b>    | <b>7-1</b> |
| <br>   |            |
| <b>Section 8. Solar-Grade Polysilicon Market.....</b>      | <b>8-1</b> |
